

THE AWD **CORDIALLY INVITE YOU TO** ATTEND 'FUME FOCUS SEMINARS'

Take time to join us

The value to Industry of the Welding and Cutting process is considerable. It enables complex structures and irregular fabrications to be formed and provides the necessary flexibility to enable many innovative products to be delivered. By its very nature the Welding and Cutting process creates fume. The Fume given off from a welding arc or gas cutting torch, which can contain both harmful gases and particulates. It is important that process operators are made aware and protected from this risk. The AWD seminar presentations will provide you with the knowledge on how these risks can be avoided and the type of protection levels that are available.

Representatives from the AWD, TWI and the Health and Safety Executive (HSE) will be on hand to assist you understand the problem and the resolution.

If you are a Member of the WJS then attendance at this seminar will qualify to your CPD.
